# MONSOON MODE ON

*In India, monsoon isn't just a season or about the rain. It's a phenomenon, like flipping a switch that turns the landscape into a magical, rainy wonderland. It's a sensory feast, a cultural celebration, and a time for renewal, all rolled into one.*

# FOCUS

## SECTOR

### RAILWAYS

#### Vision & Future of the Indian Railways

Indian Railways span thousands of kilometers practically covering the entire nation, making it the fourth largest in the world after the US, China, and Russia. The Government of India has focused on investing in railway infrastructure by making investor-friendly policies. It has moved quickly to enable Foreign Direct Investment (FDI) in railways to improve infrastructure for freight and high-speed trains. India aims to become largest green railway network in the world. Indian Railways is aiming to build a diamond quadrilateral network of high-speed rail connecting major metros and growth centers of the country.

#### Austria's connection with Indian Railways

India and Austria share a long-standing partnership in the railway sector, which has grown significantly over time. Austria's expertise has played a crucial role in the modernization and expansion of Indian Railways, particularly in technology, infrastructure, and equipment. Key areas of collaboration include track technology, maintenance, railway materials, technology transfer, and consulting. Austrian companies like Plasser & Theurer have supplied track maintenance machinery for decades, while Voestalpine provides high-quality steel and rail materials.

***Make in India, Make for World  
Austrian Success Story***

***Plasser & Theurer's Indian branch is producing globally, marking a significant success story of an Austrian company 'making in India for the world'.***
